Education

International Institute of Information Technology

B. Tech in Computer Science – 8.2 CGPA

Sep. 2018 – April 2022

Raipur, Chattisgarh

Experience

Deloitte Consulting

Full Stack Developer - Analyst

June 2022 – present

Bengaluru, Karnataka

- Successfully integrated diverse APIs into the app (Loan MarketPlace Product to offer loans to users), including critical customer APIs. Proficient in handling and manipulating user data, ensuring data security and privacy compliance
- Built complex and interactive components like offers, Error modals and others reusable components using purescript and javascript which were used throughout the product and were future proof
- Worked on priority for a production bug for a merchant which resulted in 100 more monthly loan orders from the particular merchant that month.
- Demonstrated strong problem-solving skills in addressing challenges related to mapping, data storage, and user interactions and reduced bundle size of app by 5 %

Deloitte Consulting

Full Stack Developer – Analyst Intern

Jan 2022 – June 2022

Bengaluru, Karnataka

- Assisted in development of the front end of a mobile application for Web using Purescript and the Javascript language.
- Worked on API integration and front-end development, ensuring the product's functionality and reliability
- Worked in an Agile, collaborative environment to receive design requirements, peer program, develop and test the application

Projects

GeoTraveller - Travel App Live / Code / [React.js](#), [Node.js](#), [Express.js](#), [MongoDB](#), [JavaScript](#) January 2024

- Developed Fullstack Travel Memory App where user can store all their trips on one place using an interactive map displayed on the map
- Utilized useReducer and useContext for state management in the app, enhancing the efficiency and maintainability of the codebase.
- Designed and implemented the backend using Node.js and Express and stored data on mongodb database creating a robust server-side architecture for seamless communication with the frontend

Shopper - Ecommerce Code / [React.js](#), [Node.js](#), [Express.js](#), [JWT](#), [JavaScript](#) November 2023

- Developed an e-commerce website using cutting-edge technologies including ReactJS, NodeJS, where user authentication, allows secure login, signup, and password reset functionalities using JWT.
- Added different categories for shopping based on gender and added cart functionality using useContext hook
- Integrated MongoDB Database for user credentials storage and for checking login functionality.

CryptoVerse - Cryptocurrency Tracker Live / Code / [React](#), [Javascript](#), [HTML](#), [CSS](#) October 2023

- Developed a React-based Cryptocurrency Tracking Platform using Reacts.js where user can track crypto prices and also read all latest news regarding cryptocurrencies.
- Implemented a robust light and dark mode functionality for personalized user preferences with help of Context API in react

Technical Skills

Languages: C/C++, JavaScript, SQL, Apex, Java

Front-End Technologies: HTML, CSS, REST APIs, Tailwind CSS, Bootstrap, React.js.

Back-End Technologies: Node.js, Express.js.

Databases: SQL, MongoDB, MySQL.

Other Tools/Technologies:: VS Code, Git, GitHub, Microsoft Azure, Postman, Rest-API, kubernetes

Interests:: Web Developer, Software Developer, Frontend, Backend, Full-stack, Microservices

Soft Skills::: Leadership, Problem-Solving, Event Management, Public Speaking, Time Management, communication.
